Engineering and Efficiency

Move into management - become a leader

You have been working for a few years and You have done well. You aspire for more. You want to become a better leader to improve further in your career

If You want to learn new tools, understand the theory behind good leadership practices, listen and interact with other leaders to share common problems or put in practice the new learnt concepts. Then the Himec Leadership program is for You. A six month learning experience that puts equal emphasis on your professional development and personal growth, the Himec Leadership Program will enhance your ability to manage with competence and lead with purpose. It will help you strengthen your foundations for long-term success. It will deepen your ability to lead and follow mindfully, effectively and responsibly in the business world. It will help you to articulate what success means to you and what achieving it may take. Finally, it will connect you to a community of talented peers.

Key Benefits

Leadership is an important function of management which helps to maximize efficiency and to achieve organizational goals. Just think about the following points where a good leader as much to affect:

- ✓ Initiates action
